One Program With Flexible Phlebotomy Options

Medical Assistant coursework is online-only. The included Phlebotomy program may be completed in person or online, but hands-on venipuncture training is required for every student.

MEDICAL ASSISTANT - ONLINE ONLY

Complete Medical Assistant modules, PowerPoints and quizzes at home through the student website after payment. Students attend required in-person hands-on sessions for clinical skills and instructor review.

Phlebotomy Is Included

Choose the Phlebotomy learning format that works best for you. Both options include required in-class hands-on training and unlimited practice.

IN-PERSON PHLEBOTOMY

Monday, Wednesday and Friday

Morning: 10:30 AM - 12:30 PM

Evening: 6:00 PM - 8:00 PM

Attend class for instruction, venipuncture training and live sticks.

ONLINE PHLEBOTOMY

Complete Phlebotomy coursework online at home, then attend required in-class hands-on venipuncture training and review.

UNLIMITED HANDS-ON PRACTICE

HANDS-ON TRAINING IS REQUIRED

Every Phlebotomy student must attend in-person venipuncture training, whether the coursework is completed in person or online.

UNLIMITED HANDS-ON TRAINING & PRACTICE

Students may return on eligible training days for additional practice and instructor review.
